# ABOUT

Inspired by the iconic building that shouts for elegance and beauty, we started IWAN Design House to influence society more from the artistic point of view.

In the last few years, we had over +100 projects in Egypt, Saudi Arabia, Kuwait, Qatar, Lebanon, Bahrain, UAE, and Germany.

We are providing an integrated solution for our clients in interior design, architectural design, urban design, landscape design, and fit-out.

## VISION

Our vision is to solidify our services with more project executions while expanding in other Arab and European countries with the Iwan concept of humanity, functionality, and elegance.

## MISSION

Our mission is to design projects without compensations, to achieve the optimum in the most possible ways and in all aspects of design; where form and function have to be successfully fulfilled, regulations and budgets are considered, and the result is a pleasure to us, our client, the building users, and everyone passing by.

# PHILOSOPHY

Each design is a journey that starts from the client's needs and passes by the space environment and then converting them into a unique and suitable design.

What empowers us is a satisfied client, so through each client's journey, our primary goal is to offer him a unique and astonishing experience.
